Ideal for 55" TV and above

IR Pass-through

## Stunning Sound. Made Simple.

TS7010 delivers stunning sound with a quick, easy setup. The sound reverberating from TS7010 has been specially tuned to deliver what the artist intended, delivering authentic sound reproduction at any volume. Powered by 4 discrete high-performance acoustic drivers plus 2 deep bass ports, the TS7010 with wireless subwoofer delivers exceptionally natural sound quality, from the highest highs to the deepest lows. The included wireless subwoofer delivers extra bass to make movies and music content on your TV come to life. Enjoy your favorite entertainment even more with three distinct listening modes – Movie, Music, and News. The Movie mode lets you hear the dialogue with precise clarity and feel the impact of punches or explosions in intense action scenes. Music mode enables you to hear instruments, vocals, and bass with pristine accuracy. Finally, News mode isolates ambient sound from speech, enabling you to focus on content without getting distracted by background noise.

Furthermore, TS7010 is equipped with Bluetooth for easy wireless music streaming.

Superb sound quality has been matched with a hassle-free setup. Along with set up instructions, TS7010 comes with all the cables that you would need to get started. TS7010 comes with an IR pass-through cable, allowing you to access your TV from the TV remote, irrespective of sound bar placement. With the wireless subwoofer, you can place the subwoofer virtually anywhere to adjust your exposure to bass. Additionally, wall mounting is made easy with the included kit, complete with a mounting template to ensure that you get it right the first time. When TS7010 is setup, control it using any TV remote for ease of use and to reduce clutter (when connected to TV via HDMI ARC).

## Product Highlights

### Ultimate Movie Experience

The established standard for home theater experience for audiences around the world
